ViewFun™ 3D Snap

3D Digital Camera 3DSC5

Take 3D pictures your way!

Now, you are in charge of exciting multi-dimension entertainment with ViewSonic's new ViewFun™ 3D Snap camera. With two 5 Megapixel sensors built-in, you can easily capture awesome 3D photos and 3D videos. No need for special glasses, just playback to preview in 3D instantly on the 2.4" LCD screen. You can easily switch between 2D and 3D with one quick click. ArcSoft® Wizard embedded with ViewFun 3D Snap allows you to enjoy 3D images and videos on a standard PC or notebook with the included red/cyan glasses. Even upload and share your videos on YouTube 3D using one simple click with intuitive and intelligent software included. This compact camera will make entertaining and sharing fun in full 3D, a snap!

You Choose the Shot
Capture all the moments you cherish in full exciting 3D. A simple click switches between 3D or 2D mode! You'll never miss the action. The ViewFun 3D Snap is ready to record every precious memory in 3D. From sports events, to your child's soccer practice or the good times your friends and families enjoy together, you'll be able to shoot and share it all with the new ViewFun 3D Snap.

Ready For YouTube 3D or Facebook
The new ViewSonic ViewFun 3D Snap is integrated with ArcSoft Wizard. One button is all it takes to upload your 3D videos to YouTube 3D or Face book. View your 3D videos with red/cyan glasses—it's just that simple and fun. We make it easy to share all your 3D images with the ViewFun 3D Snap!

See It Instantly in 2.4"
2.4" LCD onboard preview screen lets you view your 3D photos or videos without the use of 3D glasses.
